MORE Core skills for children's work

The sessions in this module will cover:

This module will explore further skills for children's ministry. It will help participants to develop their understanding of children and the skills required to accompany children on their journey of faith. It will help to develop a vision of a Christian community in which children's faith is nurtured.

The six sessions will cover:

- Children with Special Needs
- Challenging Behaviour
- Transitions
- Children's Advocacy
- Working with Junior Leaders
- Global Dimension

Who the module is for

Living Faith modules are open to any Christian who would like to learn more about their faith. You need not have done any academic study before but you will need a reference from your church minister or a tutor who has taught you recently to say that they would benefit from study this level. The student group will include those training as Lay Pastoral Ministers, Licensed Evangelists and Readers in the Diocese of Peterborough and those working towards the Certification in Children's Ministry. Those training for ordination on the Eastern Region Ministry Course may also join the group.

Assignment

Everyone taking this module will be encouraged to record the most important things they have learned after each session. This will help you to reflect and develop your own understanding. This can be a creative task and need not involve much writing.
