Data from September 2022

Strand seven – VA only

As a result of the rich and engaging RE curriculum, which reflects and takes account of up-to-date thinking and developments in the subject, teaching and learning is consistently graded good through regular school monitoring (verified at inspection). Based on the data available at the time of inspection and paying due regard to context, pupils make good progress against local expectations (KS1-3) and national averages for GCSE. This includes pupils with SEND and the most able. As a priority, the school is enabling its vulnerable pupils, including those with learning difficulties, to flourish in their RE learning.

Data from September 2022

Strand two

Based on national assessments available at the time of the inspection, progress information provided by the school and paying due regard to context, the school is at least in line with national averages in progress statistics. School leaders and teachers explain how the Christian vision underpins curriculum decisions and ways in which learning is fostered, and they illustrate the positive impact that these decisions have on children and young people's learning and development. This includes pupils with special educational needs and disability (SEND) and the most able. As a priority, the school is enabling its vulnerable pupils, including those with learning difficulties, and those who experience barriers when accessing remote learning, to flourish and make progress in their learning.

The List

- The 'List' will be updated in the Summer/July and will include all schools that we expect to inspect in the academic year 2022-2023 ie September '22 July '23.
- We will send it to DDEs and SIAMS Leads for an accuracy check before releasing it to schools/publicly.
- The List will continue to be published annually indefinitely.

Quality Assurance of Inspection Practice (QAI)

- All registered inspectors will be subject to QAI over the coming years.
- This information will be included in the notification call to the school when relevant.
- The QA inspector will not inspect the school; they will observe the practice of the inspector.
- No schools will be inspected by two inspectors.
- QAI will address the inspector competencies, including adherence to national protocols.

Joint CE/RC schools

- None have been inspected this year.
- A small number (approx. 2) are due in 2022-23.
- These will be done under the RC new national framework. I will contact DDEs for whom this is relevant and discuss the protocols.
- A joint framework/approach should be in place for September 2023.
