

“I would like to extend our deepest thanks for bringing Project Touchline to All Saints' and for the incredible impact it has had on our school community. Through this initiative, we have seen a true alignment with our vision and values, particularly in the way sport has been used as a powerful vehicle to instil teamwork, resilience, and leadership.

The efforts made to bring Project Touchline to life have not only elevated the profile of physical activity within our school but also reinforced the importance of inclusivity, respect, and determination — principles at the core of our educational ethos. We are proud to see how the program has fostered a spirit of collaboration and has inspired our students to pursue excellence both in sport, the playground and the classroom. Most importantly, the legacy of Project Touchline will continue to shape the way future generations engage with sport and with each other. The lessons learned through this project will have a lasting impact, ensuring that the values we hold dear are passed down and embraced for years to come.

Once again, thank you for your vision and dedication. We are deeply grateful for the positive changes Project Touchline has brought to our school.

We look forward to continuing this journey and working with you again in the future.”
