

## Resources for Preaching

Both Old and New Testaments have a lot to say about how God's people are to use wealth and possessions – an estimate is that the Bible has around 500 verses each on faith and on prayer, and 2,350 on money and wealth! So it would be surprising if the topics of money and wealth are not mentioned regularly in preaching and teaching.

### Popular passages for preaching on stewardship are:

#### Deuteronomy 26: 1-15

This describes the Israelites giving a thanksgiving offering to God for all that they have received. How often do we thank God for everything we have been blessed with?

#### 1 Chronicles 29: 1-25

David makes a personal donation towards the building of the temple before he asks for voluntary contributions. This makes a great model for a PCC!

#### Acts 4: 32-37

Believers in Christ show themselves to be willing to share their possessions and to make personal sacrifices in order to help others.

#### Romans 15: 22-29

Paul distributes a gift of money amongst the churches which represents hope and thanksgiving.

#### James 2: 1-7

Make no distinction between rich and poor; do not judge on appearances. This is a good justification for proportionate giving.
